answering questions							
I won't have a chance to say hello or good <i>bye</i> when I'm blocked/banned/whatever. So, Hello; I'm not holding my breath on anyone addressing your questions concerning Dawn Well's page on Wiki; and I better get in a good- <i>bye</i> , as I feel I have the lifespan of a May fly in a low ceilinged room full of bullfrogs; not because I'm wrong, but because anyone on your side of the issue is going to be attacked and baited into some infraction, an infraction ignored by someone they like, but an infraction that will be worthy of execution when committed by me."	0	0	0	0	0	0	1
Don't worry ThuranX, I don't think I will be spending any more of my time or hard work on Wikipedia after the lies, false accusations, and lack of truth that has occurred here lately. There is no point in arguing against ignorance- the principle of it all just makes me very angry! Good <i>bye</i>	0	0	0	0	0	0	1
Welcome to the site of chimp014 you are allowed to send messages but not delete them thank you very much ...good <i>bye</i>	0	0	0	0	0	0	1
Keep kidding yourself. Thats the fanboy site you are using for your third reference. You	0	0	0	0	0	0	1

2.

- a. Here you can use the Search comment placeholder for searching a comment. Kindly click on submit once your comment is added.
- b. To reset comments, click on the Clear filters button.
- c. There are figures below which follow the same data which is in the data table.
- d. If you click on the below bar chart, that data will get reflected in the other charts as well.

The other two charts:
